

```
1  #include <stdio.h>
2  int main()
3  {
4      int a, b;
5      printf("enter two number");
6      scanf("%d %d", &a, &b);
7      a = a + b;
8      b = a - b;
9      a = a - b;
10     printf("the values afer swapping are
    %d %d", &a, &b);
11 }
```
